

METHOD FOR REMOVAL OF GUANIDINE COMPOUND FROM AQUEOUS  
MEDIA

ABSTRACT OF THE DISCLOSURE

[0060] Disclosed is a method for removing a neutral or an ionic guanidine compound from an aqueous media optionally comprising an alkali metal halide, wherein the method is selected from the group consisting of (a) adsorption onto a carbonaceous adsorbent, (b) adsorption onto a clay adsorbent, (c) filtration through a nanofiltration membrane, and (d) removal of water and calcination.
